RONALD MCDONALD FAMILY ROOM PROGRAMS

- **7,240 times**, families of sick children visited Ronald McDonald Family Room programs to be close to children in hospitals in March.
- For all time — more than **160,000 visits**.
- During the war, the program became even more relevant: **the number of visitors almost doubled**.

RONALD MCDONALD FAMILY ROOM PROGRAMS

This month became special because it was in March that Ronald McDonald Family Room programs were visited for the **150,000th time**. The guest was the Zabolotny family from the Sumy Oblast. It was here, in the Family Room at the Sumy Regional Children's Hospital, that the family could forget about constant shelling and illness, and just be together.

WE SENT FOOD KITS

In March, the Charities team handed over **11,920 Food Kits**. Since the beginning of the war — **190,892 Kits** worth **UAH 71,289,946**. Among those who received help is a family of internally displaced persons from the Kupiansk region.

The family's hometown was occupied for half a year, and now it is under shelling. Six children and their fragile mother saw with their own eyes all the horrors of war. It is essential for us to support such families during this difficult time.
